

Message from Main Road School Nurse-Mrs. Kiger

Dear Parents/Guardians:

Welcome Back to a new school year!

The health office is very busy yet filled with a fun and interesting agenda. The state requires all students in **3rd grade** to be health screened which involves the **measuring of height, weight, and blood pressure**, in addition, the screening of their vision and hearing. The **4th grade** is health screened with the measuring of **height, weight, blood pressure**, and with consent as requested below, screening for **Scoliosis/Family Life participation**.

**Scoliosis screening** will be provided for Grade 4 students who have returned their signed permission consents. Please complete the permission consent below and return bottom portion by requested date if your child will be attending Grade 4.

**Family Life Classes** will be taught to our Grade 4 students after the winter holiday break. Our Health and Family Life Curriculum is aligned with the New Jersey Core Curriculum content standards. Please circle permission consent below and return by requested date.

The 4th grade Family Life Classes will be held after the New Year. The boys and girls will be separated. The girls will be taught by the school nurse, Mrs.Kiger, and the boys will be taught by our gym teacher, Mr. Capecci. Some of the topics discussed are the menstrual cycle(girls only), changes that take place in the body during puberty and personal hygiene.

All students requiring MEDICATION to be administered during school hours (including over the counter medication) must have their doctor complete and sign the MEDICATION CONSENT FORM. A student who will need asthma medication during school hours, will need the Asthma Action Form completed in addition to the medication consent form. All forms are listed online. Medication is to be delivered to school by an adult in its original prescription labeled container.

EMERGENCY CONTACT INFORMATION including current home, cell and work telephone numbers must be provided before your child/children start school.

WEBSITE for informative letters and forms requested is as follows:[www.franklintwpschools.org](http://www.franklintwpschools.org)

- Top Heading: Parents/Students
